	Bus Stop Improvements

Landscaping at the New Inn junction is due to be undertaken late 2023

Improvements completed in 2023 at the New Inn junction include: Dedicated space for cyclists linking to/from Darbys Lane, new crossing points, traffic signal upgrades, removal of barriers for cyclists accessing Mellstock Road and widening of pavements and converting them to shared use. The carriageway was resurfaced from Kings Close through New Inn junction and up to Daisy Close

Shared space installed, with cyclists giving way to pedestrians boarding/alighting a bus

New pedestrian crossing installed

Dedicated northbound cycle lane, segregated from the carriageway by traffic wands, with access to/from properties maintained. Cycle lane will have priority over junctions.

All parking will be removed on the western side of Wimborne Road, between Tatnam Road and New Inn junction

Existing bus stops relocated further north. Cycle lanes will pass behind the bus stop creating an island for pedestrians to board/alight a bus

Dedicated southbound cycle lane, segregated from the carriageway by traffic wands, with access to/from properties maintained. Cycle lane will have priority over junctions.

Existing bus stop relocated further north, where cyclists give way to the bus
